

# 10 Summing Up

The journey from Special Staff (SS) to Special Police Section (SPS) to Special Police Establishment (SPE) to Delhi Special Police Establishment (DSPE) to the Central Bureau of Investigation (CBI) is long and eventful.

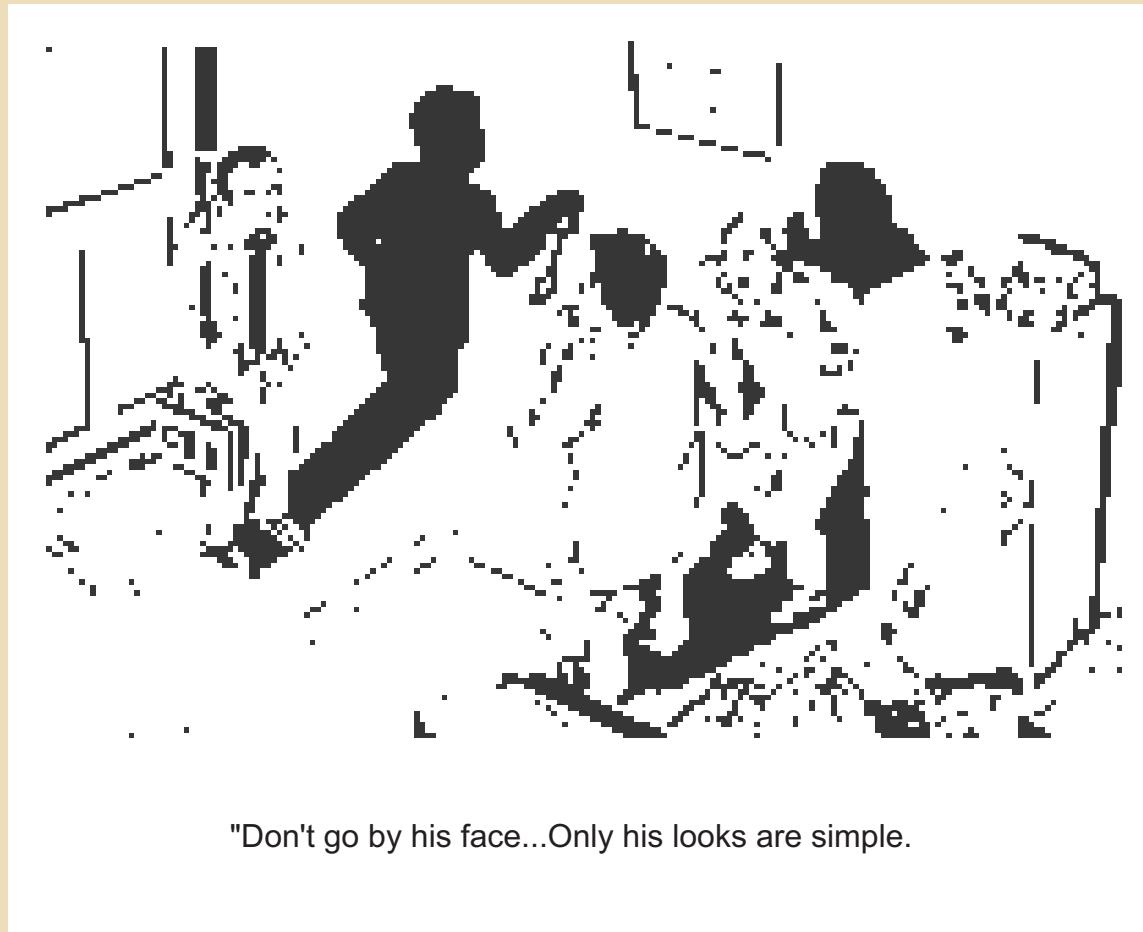

## EVOLUTION OF CBI 1941 - 1963

The organization started, as noted above, as a colonial corps to traverse a limited terrain (War Department) and to serve a limited purpose (investing corruption) is now a powerful multidimensional, multi-disciplinary, and multifunctional organization, covering vast national landscape. It has its presence – meaningful presence to be precise – throughout the country. Not only weight of the work it handles, but its sensitivity and complicity is also pretty huge. But the

organization, fortunately, carries it effectively and gracefully.

The CBI's three tools/weapons : INDUSTRY, IMPARTIALITY and INTEGRITY stand it in good stead – always, everywhere – in doing its duty effectively. This accounts for its credibility and relevance and explains why people – *aam admi* to be precise - have unshakable faith and confidence in it.

"Don't go by his face...Only his looks are simple."
